EL PASO

: - :

TEXAS

Greetings!

El Paso is located somewhat in the center of a table-land quite different from any other section of the United States. The area is high and dry and somewhat shy of humidity. Some plants like these conditions, others do not. Our business is therefore a speciality Seed and Plant business. We specialize in such Seeds, Plants, Shrubs and Evergreens of proven adaptability to the Southwest and Northern Mexico.

We operate Palm Gardens, located in the Rio Grande Valley just East of El Paso. We grow Roses, Shade Tree, Evergreens, Flowering Shrubs, Annual and Perennial Plants. Some of the items which we grow are offered in this catalog.

Our test gardens enable us to furnish very accurate and valuable advice as regards WHAT and WHEN to plant in this section.

PLEASE NOTE

We use every human care in the purchase of our seed stocks. We buy from the most reliable seed growers in the world, yet we give no warranty, express or implied, as to description, quality, productiveness, or any other matter connected with the Seeds, Plants and Shrubs we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the Seeds, Plants and Shrubs on these terms they are to be returned to us at once and your money will be promptly and cheerfully refunded.

GROWING ZINNIAS

Cut your flowers every few days. Pinch a few buds if you want extra-large flowers.

Space the plants at least a foot apart. Close planting means small flowers.

Use plenty of manure to mulch your plants. Irrigate your beds so that the roots will go down.

Do not plant in **SANDY SOIL**. Zinnias prefer a cool, rather heavy soil.

EVERYONE SHOULD HAVE A ROSE BED

The Southwest is one of the greatest rose sections in the United States. Roses like lots of sunshine. The rose should be planted in a bed that has good drainage and is free of manure and of good fertility. In order to produce a continuity of bloom it is necessary to feed the plants liberally during their growing season.

PALM ROSES ARE FIELD GROWN. All are two year old, budded stock. All of the roses listed below have been tested in our gardens and are particularly valuable for cut flowers.

We have a limited number of Extra Large Roses, both bush and climbing, which we can dig with dirt. They are too large to handle bare rooted. The price depends upon the variety.

A number of the most popular varieties are being established in 5 gallon cans. One can plant these roses at any time.

Orders for Roses should be sent in early. Don't delay in placing your order. January is a fine month to plant Roses.

If you want just a few bushes plant Radiance(Pink), Red Radiance and Mrs Charles Bell (Shell Pink). These three Roses are certain to bloom profusely if given ordinary care.

A rose bed should be out in the open away from trees. Don't try to raise flowers in a rose bed. Good drainage is necessary. If the soil is not heavy, mix with heavy soil.

Roses require plant food during their blooming season. Manure and commercial fertilizers are easily obtained and, if used properly, will replace the stock cut with the blooms.

THREE VERY FINE GARDEN ROSES

Radiance (Pink), Red Radiance (Red), Mrs. Charles Bell (Shell Pink). Wonderful growers and bloomers, specially priced at 50c each, 6 for \$2.25, 12 for \$4.25. Packing free, f. o. b. El Paso.

FIELD SEEDS

ALFALFA — THE BEST FORAGE CROP

There are two varieties of Alfalfa commercially planted in the Southwest. Some people prefer Hairy Peruvian, others are equally partial to the Common or Chilean. The Hairy Peruvian yields a larger tonnage than the Common or Chilean type. Chilean Alfalfa, however, produces a finer stemmed hay.

All of our Alfalfa Seed is tested and tagged. We have a fine lot of seed, free of weed seeds, bought early last Fall and are in a position to quote you most attractive prices. **GET OUR PRICE BEFORE YOU BUY.**

FORAGE SEED

It is impossible at the time this catalog goes to press, to quote on SEED CORN, CANE SEED, MILLET, SUDAN GRASS, HEGIRA, KAFIR CORN, FETERITA, MILO MAIZE and OTHER FIELD SEEDS. A postal card from you will bring a quotation by return mail. Our prices are always in line on Field Seeds.
